Before I tell you [how to get the iPhone4s for free](#), I want to talk about some of the cool features that come on the new iPhone4s. Siri on the iPhone4s is the ultimate game changer. I like to call siri “ my personal assistant.” Siri has the ability to check messages, check appointments, find directions, find restaurants, check stocks and much more. Siri has the ability to understand your every command and you can experience her with the free iPhone4s

iCloud is another unique feature on the iPhone4s. iCloud lets you manage all of your content on all of your devices. iCloud is very unique because it allows you to transfer your music, photos, books, and apps from one device to another. With iCloud, you can automatically send content that you purchase to other devices the moment you buy or download them. You can send music, photos,book, and even apps to all your devices simultaneously. The list goes on, but the best part is that you can have all of this amazing technology created by apple with a [free iPhone4s](#).
